Sub: Request for permission to Industrial visit under MoU activity regarding.

Dear Sir,

We are happy to inform you that our college is one of the premier Educational institution known for its educational excellence and is affiliated to Rani Channamma University Belagavi. The students of B.Sc-VI Semester Studying Chemistry as optional subject should visit an Industry and submit the Industrial Report/Tour Report as per the University Curriculum. The Industrial Visit/Tour Report will be assessed for 10 marks at the B.Sc-VI Semester University Practical Examination. Hence as a part of Curriculum the students are planned to arrange an Industrial Visit to your Sugar Factory. The Industrial visit will help our students to study about the process of sugar manufacture, quality control of products, environmental aspects of Industry and above all the visit will enrich their academic knowledge. Hence we are kindly requesting you to grant permission for our students and staffs to visit your industry on 28.02.2020 .We are very happy and eager to take part in Industrial visit which is a second activity of our Department MoU.

Hoping for your early and positive response.

Thanking you

DEPARTMENT OF CHEMISTRY

REPORT OF INDUSTRIAL VISIT

(MoU ACTIVITY 2019-20)

Visit to a Industry/Field is a very important and effective method of learning. Industrial visit is introduced in the University syllabus for chemistry (optional) students of 6 Semester and its report is assessed at the university practical examination. As a part of curriculum and also as an activity of our Dept MoU, the Chemistry Department organized one day Industrial visit to shri Balaji Sugars and Chemicals pvt. Ltd, Yaragal on 28 February 2020 for B.Sc-VI Semester Chemistry (opt) Practical Batch-6 students. The purpose of the industrial visit is to expose the students to industries for developing collaborative activities in academic areas and getting the knowledge of industrial manufacturing process.

With the prior permission and guidance of Principal, Head of the Department and Manager of Balaji sugar's factory, the team of 26 students, a Lab attender and 2 faculty members started journey from the college at 9.30 am through a private vehicle. The team reached the sugar factory around 10.00 am. At the very beginning of the visit, the team met shri. S.J. Shedabale, Manager (HR) in the premises of the factory. The Manager interacted with students and faculty for a few minutes and then sent a resource person and chief chemist shri. Sharma to show us the process of production of sugar from sugar cane. The resource person accompanied with team and entered the factory. All of them watched the machines. The factory was well equipped with the advance and new technology. Then the resource person discussed in detail the process of manufacture of sugar, availability of raw material, crushing the raw material, final product with package and environmental aspects of factory by means of a flow chart. After this all moved and watched the actual ongoing process of sugar production in the factory. Students interacted with the chief chemist. All queries raised by students were resolved satisfactorily. The visit was very informative and students were highly benefitted. The industrial visit was finished at 1.00 pm by proposing vote of thanks to all who helped during the visit. The team left the sugar factory and travelled for sightseeing of Neelambika Devi temple near Tangadagi village. All students and staff took darshana of Neelambika Devi and enjoyed the sightseeing. All had their lunch. With some entertainment programmes lastly travelled to Muddebihal and reached the college at 4.00 pm.

With this activity the students come out with a practical knowledge of sugar production, marketing, human resources, industry placement opportunities, pollution control measures and above all brought a positive change in their thinking. The students requested to organise industrial visits regularly in future to enhance and explore their knowledge/ skills.

REPORT OF INDUSTRIAL VISIT

(MoU ACTIVITY 2020-21)

Industrial Visit /Field visit is a very important and effective method of learning through participation. As our Dept MoU and also a part of curriculum, the Department of Chemistry organized one day Industrial visit to shri Balaji Sugars and Chemicals pvt.Ltd, Yarangal on 12 February 2021 for B.Sc-V Semester Chemistry(opt) Practical Batch-4 students. The purpose of the industrial visit is to expose the students to industries for developing collaborative activities in academic areas and getting the knowledge of industrial manufacturing process, employment opportunities.

With the prior permission and guidance of Principal, Head of the Department and Manager of Balaji sugar's factory, 20 students, a Lab attender and 2 faculty members started journey from the college at 10 am through a private vehicle. The team reached the sugar factory around 10.30 am. At the very beginning of the visit, the team met shri.Narendrakumar Sharma, Dy Manager (processing) in the premises of the factory. The Manager interacted with students and faculty for a few minutes and then took the team into the factory and showed us the internal working environment of factory then the process of production of sugar from sugar cane. All we watched the machines. The factory was well equipped with the advance and new technology. Then the resource person discussed in detail the process of manufacture of sugar, availability of raw material, crushing the raw material, final product with package and environmental aspects of factory by means of a flow chart. After this all moved and watched the actual ongoing process of sugar production in the factory. Students interacted with the chief chemist. All the doubts raised by students were resolved satisfactory. The students visited laboratories and then the water plant and water effluent plant. The students interacted with Shri.Kotresh Pattanashetti, Head of water plant. At the laboratories of water plant, Shri.Taranal discussed about physico chemical parameters of water and their determination. After this the students and faculty met the Honorable Managing Director Shri.Venkatesh.Patil. Students congratulated the MD and authorities of factory for giving this visit opportunity. Visit was very informative and students were highly benefitted. The industrial visit was finished at 1.00 pm by proposing vote of thanks to all who helped during the visit. The team left the sugar factory and travelled for sightseeing of Neelambika Devi temple near Tangadagi village. All students and staff took darshana of Neelambika Devi and enjoyed the sightseeing of Krishna River. All had their lunch. After some entertainment programmes the team left the temple at 3:15 pm and travelled to Muddebihal and reached the college at 4.00 pm.

With this activity the students come out with a practical knowledge of sugar production, marketing, human resources, industry placement opportunities, pollution control measures and above all brought a positive change in their thinking. The MoU activity was very informative and memorable for the students.

Sub: Request for permission to visit Krushi Vidyapeeth regarding.

Dear Sir,

We are very happy to know that your Krushi Vidyapeeth is providing the practical knowledge about Organic Farming, Soil, Soil Composition, Soil Conservation and Soil Analysis with the modern instruments to farmers. The activities of vidyapeeth are really helpful to our B.Sc-VI Semester Chemistry optional students as the University introduced the 'Soil Analysis' as a syllabus. The chapter covering about Soil, Soil Composition, Soil fertility, Soil nutrients and determination of soil nutrients. Hence as a part of Curriculum the students and staff are planned to arrange a Field Visit to your Krushi Vidyapeeth. The Field visit will help our students to learn about Soil at the spot practically with interaction and hence made clear the theoretical aspects of the chapter what they have learnt in the class room. Above all the visit helps in developing field concepts, fosters a sense of team work. Hence we are kindly requesting you to grant permission for our students and staff to visit your vidyapeeth on 28.08.2021

Hoping for your early and positive response.

Thanking you.

Dear Sir,

With Reference to your letter (No:PMSKV/FV/2020-21 dated 22.08.2021), I am thankful to you for your immediate and positive response to our letter regarding the Field visit permission. The Field Visit team consisting of 23 students(Male- 08 and Female-15) and 3 Faculty members of the Department and are leaving the college on 28-08-2021 at 10:30 AM and will be at the vidyapeeth by 11:00 AM. The list of students and staff is enclosed along with this letter.

We hope you will extend your co-operation further during the visit.

Thanking you.

Dear Sir,

We are pleased to inform you that your college Field visit team of 23 students and 3 Faculty members visited our Krushi Vidyapeeth today 28-08-2021. The team entered the vidyapeeth at 11:15 am. The president, members of the vidyapeeth and soil analysts shared the knowledge and practical aspects of soil and soil analysis. The students involved actively with great interest in all the activities and interacted. The Team of Field visit left the Vidyapeeth at 4:15 pm.

Thanking You.

REPORT OF FIELD VISIT

(DEPT ACTIVITY 2020-21)

Visit to a field is an effective method of learning through participation. The visit experience goes beyond reading about a concept; students are able to see it at the spot, manipulate it, record the details of observations, interact physically. Visiting a farm and milking a real cow is much more effective than reading about milking cow. There are plenty of opportunities to incorporate the field visit/trip experience back into classroom steady.

Department of Chemistry organised a field visit to Parappa Master Savayava Krushi Vidyapeeth, Basarakod for B.Sc-VI Semester Chemistry optional (Practical Batch-3) students on 28.08.2021. The vidyapeeth is 11 km away from the Muddebihal city. The purpose of the field visit is to know about soil, soil composition, soil fertility, soil nutrients, determination of soil nutrients and organic farming. The 'Soil Analysis' chapter introduced as a syllabus for B.Sc-VI Semester students in the chemistry optional subject is covering all the above said concepts/contents. This unit studied theoretically in the classroom can be studied practically during the visit.

With the prior permission of principal and the president of Krushi Vidyapeeth, the Team of 23 students and 3 faculty members started the journey from college campus at 11 AM through a private vehicle and reached the vidyapeeth around 11:15 AM. At the very beginning of the visit, the Team met the vidyapeeth president, youth awardee and leader of progressive farmers Shri. Aravind. Koppa. The president welcomed the Team and interacted for a few minutes. Then took the team in and around vidyapeeth and explained in detail about soil, soil composition, soil fertility, soil conservation, soil nutrients and organic farming. He also highlighted the problems of farmers who visiting the vidyapeeth and strongly suggested not to use more chemical fertilizers for greater crop productivity and to avoid the soil pollution. Also showed the various methods adopted for increasing the soil nutrients. Later the soil analysts Shri. Santosh. R. Naik and Shri. Mahantesh. P. Naregal from Hitnalli farm took the team to laboratory and gave the information about different equipments used for soil analysis. Then explained the determination of soil nutrients using the instruments. These practical aspects made clear the topic of soil analysis which the students have learnt in the classroom. Students interacted with soil analysts and president. All the queries raised by students were satisfactorily solved. After the interaction and discussion a function was arranged in which the president shared the thoughts of organic farming and students expressed their opinions and benefits of this visit. Later Smt and Shri. Aravind. Koppa, of vidyapeeth provided the meals to all the students and faculty. Thus a good hospitality by the vidyapeeth right from beginning to end of our programme. Lastly the faculty proposed vote of thanks to the president, members of vidyapeeth, experts who helped during the visit. The team left vidyapeeth at 4 pm and reached the Muddebihal around 4:30 pm.

The visit/event helps in developing field concepts and processes through direct personal experiences, also in understanding correlation between mankind and environment. The event also fosters a sense of teamwork and community among the students as they experience a field visit together. Field visit to organic farming is 'seeing is believing' The visit was more informative, innovative and was also a memorable to students.
