## Policy Document on the Green campus

### **Green campus:**

A green campus is a place where environment friendly practice and education combine to promote sustainable and Eco-friendly practices in the campus. The green campus concept offered an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of mankind.

### **Objectives of the Go Green Programme:**

To give this initiative more clarity and authenticity, we now roll out a POLICY DOCUMENT spelling out the strategies, plan and other allied tasks to make this Program functional officially.

We believe that greening the campus is all about sweeping away wasteful inefficiencies and using conventional sources of energies for its daily power needs, correct disposal handling, purchase of environment friendly supplies and effective recycling program. The administration of the institute believes that everyone has to work out the time bound strategies to implement green campus initiatives. These strategies need to be incorporated into the institutional planning and budgeting processes with the aim of developing a clean and green campus.

### **Composition of the Go- Green Committee:**

1. Principal of the college- Chairperson
2. IQAC Coordinator – Secretary
3. Faculty Representative nominated by the Principal
4. Student Representative – general Secretary of the College
5. Non- teaching Staff Representative – Office Superintendent

### **B. Role of the Go- Green campus Programme:**

The impetus for a successful Green Campus must begin at the top and emanate throughout the rest of the campus. Without a strong message of commitment and involvement from both the Chairperson and Members of the Committee. Well – intentioned initiatives may be too fragmented to allow for Institute- wide participation. Thus in view of this, the committee will plan and execute to:

1. Seek views of all the Stakeholders to make the Go Green Campus initiative functional throughout the year.
2. Conduct the campus environmental impacts to identify the targets for improvements.
3. Establish a Green Campus Environmental Ethics Awareness campaigns.
4. Set forth a Green Campus Mission and Statement of Principles.
5. Link Green Campus activities to academics in the Institute.
6. Organize Awareness Programs for the students, faculty and society.
7. Chart out a yearly plan of the Institute, local community and Stakeholders.
8. Phase out the CFL and conventional light source such as bulbs and tube lights, halogen and mercury street/ campus lights and get them replace by LED's.

### C. Promotion of “Save Energy Tips” in and outside the Institute:

- Activate power management features on your computer and monitor so that it will go into a low power “Sleep” mode when you are not working on it.
- Turn off your monitor when you leave your table.
- Whenever possible, shut down rather than logging off.
- Turn off unnecessary lights and use daylight instead.
- Avoid the use of decorative lighting.
- Use LED or compact fluorescent bulbs.
- Keep lights off in conference rooms, classrooms, lecture halls when they are not in use.
- Use the fans only when they are needed.
- Rainwater Harvesting
- Maintenance of water bodies and distribution system in the campus.
- Plastic free campus
- Tree Plantation Drive
- Cleanliness Drive
- Landscaping and gardens
- Use of LED's only
- Digital Library/ E-Learning Centre.
- Organization of sensitization programs for the stakeholders
- Green, Environment and Energy Audit conducted
- Restricted entry of automobiles

The Institute will make all the necessary efforts to involve the students, faculty and staff in “Green Campus Initiatives” by designation the volunteers of Eco Club, NSS and NCC cadets, printing T-shirts/ Caps with green campus initiative slogan specially designed for the purpose.

#### The Great Donor

We are evergreatful to Late Matoshree Gangamma Veerappa  
Chiniwar Muddebihal

Flora is word of Latin origin referring to flora, the goddess of flowers. Flora can refer to a group of plants as well as to bacteria.

#### Importance of Flora to Humans

The flora of plant is so important for us that we can even think about living without them. Plants support life both on the land. Botanists have been writing since the early 1600s. Physicians used Floras for information on medicinal plants while horticulturists used flora to identify plants that might be brought into cultivation. Flora have documented plants collected in exotic places as well as plants growing in a Botanists own area.
