Transactions of the London Mathematical Society

An official journal of the London Mathematical Society. An open access journal with a wide scope, ranging from number theory to functional analysis and from quantum field theory to topology.

Applied Mathematics Research eXpress

Publishes research articles dealing with the use of mathematics in all areas of research, usually in the form of mathematical/computational models and algorithms.

Proceedings of the London Mathematical Society

An official journal of the London Mathematical Society. Publishes longer research articles that contribute significant research findings, with an emphasis on pure mathematics.

International Mathematics Research Papers

As of 2009, International Mathematics Research Papers has been incorporated into International Mathematics Research Notices. The journal published lengthy research articles of high topical interest in all areas of mathematics.

International Mathematics Research Notices

Publishes research articles of high current interest in all areas of mathematics. Articles are fully refereed and judged by their contribution to advancing the state of the science of mathematics.

Mathematical Medicine and Biology: A Journal of the IMA

An official journal of the Institute of Mathematics and its Applications. Publishes original articles with a significant mathematical content addressing topics in medicine and biology.

Journal

The Quarterly Journal of Mathematics

Publishes original contributions to pure mathematics. All major areas of pure mathematics are represented on the editorial board.

Journal

International Mathematics Research Surveys

As of 2008, International Mathematics Research Surveys ceased publication. It published extensive survey articles on the state of research in all parts of mathematics emphasizing trends and open problems.

Comparing interfacial cation hydration at catalytic active sites and spectator sites on gold electrodes: understanding structure sensitive CO₂ reduction kinetics

Jaclyn A. Rebstock, Quansong Zhu and L. Robert Baker

Site-specific vibrational probes were used to elucidate the interfacial solvation structure between catalytic active sites and inactive sites on a Au electrode to reveal a unique, opposing cation-dependent double layer structure at active sites.

The article was first published on 15 Jun 2022.

About N-LIST

Background

The Project entitled "National Library and Information Services Infrastructure for Scholarly Content (N-LIST)", being jointly executed by the e-ShodhSindhu Consortium, INFLIBNET Centre and the INDEST-AICTE Consortium, IIT Delhi provides for i) cross-subscription to e-resources subscribed by the two Consortia, i.e. subscription to INDEST-AICTE resources for universities and e-ShodhSindhu resources for technical institutions; and ii) access to selected e-resources to colleges. The N-LIST project provides access to e-resources to students, researchers and faculty from colleges and other beneficiary institutions through server(s) installed at the INFLIBNET Centre. The authorized users from colleges can now access e-resources and download articles required by them directly from the publisher's website once they are duly authenticated as authorized users through servers deployed at the INFLIBNET Centre.

N-LIST: Four Components

The project has four distinct components, i.e. i) to subscribe and provide access to selected e-ShodhSindhu e-resources to technical institutions (IITs, IISc, IISERs and NITs) and monitor its usage; ii) to subscribe and provide access to selected INDEST e-resources to selected universities and monitor its usage; iii) to subscribe and provide access of selected e-resources to Govt./ Govt.-aided colleges and monitor its usage; and iv) to act as a Monitoring Agency for colleges and evaluate, promote, impart training and monitor all activities involved in the process of providing effective and efficient access to e-resources to colleges.

The INDEST and UGC-INFONET are jointly responsible for activity listed at i) and ii) above. The INFLIBNET Centre, Gandhinagar is responsible for activities listed at iii) and iv) above. The INFLIBNET Centre is also responsible for developing and deploying appropriate software tools and techniques for authenticating authorized users.

Note: From Year 2014, N-LIST programme is subsumed under e-ShodhSindhu Consortium as college component. The colleges (except Agriculture, Engineering, Management, Medical, Pharmacy, Dentistry and Nursing) in India are eligible to get access e-resources under N-LIST programme.

USAGE STATISTICS

Note:

- The N-LIST Programme has implemented a new method for reporting usage statistics with the change in N-LIST Access Methodology from July 2021. The new usage statistics now include page views and unique sessions for each user of the college based on the logs generated from N-LIST.
- Usage statistics of users are updated in the first week of every month.

Coverage-time optimization for clustered wireless sensor networks: a power-balancing approach

Source: ACM Digital Library

Author: Shu, Tao | Krunz, Marwan

Research | UG and PG

ENG

In this paper, we investigate the maximization of the coverage time for a clustered wireless sensor network by optimal balancing of power consumption among cluster heads (CHs). Clustering significant! [View more](#)

Networking

Deploying sensor networks with guaranteed fault tolerance

Source: ACM Digital Library

Author: Hajiaghayi, Mohammad Taghi | Bredin, Jonathan L. | Demaine, Erik...

Research | UG and PG

ENG

We consider the problem of deploying or repairing a sensor network to guarantee a specified level of multipath connectivity (k — **connectivity**) between all nodes. Such a guarantee simultaneously provides fault tolerance against node failures and high overall network capacity (by the max-flow min-cut theorem). We design and analyze the first algorithms that place an almost-minimum number of additional sensors to augment an existing network into a k — **connected** network, for any desired parameter k . Our algorithms have provable guarantees on the quality of the solution. Specifically, we prove that the number of additional sensors is within a constant factor of the absolute minimum, for any fixed k . We have implemented greedy and distributed versions of this algorithm, and demonstrate in simulation that they produce high-quality placements for the additional sensors.

Networking

Measurement-based analysis, modeling, and synthesis of the internet delay space

Source: ACM Digital Library

Author: Wang, Guohui | Ng, Tze Sing Eugene | Nandi, Animesh | Druschel, Pe...

Research | UG and PG

ENG

Understanding the characteristics of the Internet delay space (i.e., the all-pairs set of static round-trip propagation delays among edge networks in the Internet) is important for the design of global-scale distributed systems. For instance, algorithms used in overlay networks are often sensitive to violations of the triangle inequality and to the growth properties within the Internet delay space. Since designers of distributed systems often rely on simulation and emulation to study design alternatives, they need a realistic model of the internet delay space. In this paper, we analyze

Didi suggests Gopal Gandhi or Farooq for Prez, but no call yet

Pawar Is Oppn's Unanimous Pick, But He Declines

Moham Chatterjee
@timesgroup.com

New Delhi: At a meeting attended by top leaders of 17 opposition parties here Wednesday over July's Presidential polls, names of Mahatma Gandhi's grandson and former Bengal governor Gopal Krishna Gandhi as well as National Conference president Farooq Abdullah cropped up as possible nominees after Sharad Pawar declared the offer to be the opposition's consensus candidate. Though the NCP chief emerged as the unanimous choice, he said he would prefer to be in active politics. TMC chief and Bengal CM

G.R. 1P president Abhishek Yadav, PJP chief Mahabubul Mufti, Bengal CM Manita Banerjee, NCP chief Sharad Pawar, leader of opposition in RS Kishore Chandra Murmu and DMK's TR Baalu in New Delhi

I sincerely appreciate leaders of opposition parties for suggesting my name as a candidate. However, I have humbly declined the proposal. —SHARAD PAWAR | NCP chief
The opposition revolutionaries talked about fielding a candidate, "who in this 79th anniversary year of the independence can truly serve as the custodian of the Constitution and at the same time be a leader of the people." The possibility of the emergence of a consensus appears remote with most opposition parties deciding to field their own candidate. P 9

BJP seeks names but oppn says tell us yours first

Opposition minister Rajnath Singh and BJP chief JP Nadda on Wednesday spoke to key opposition leaders as well as Bihar CM Nitish Kumar and his Odisha counterpart Naveen Patra to explore the chance of serving in on a consensus Presidential candidate. Singh reportedly wanted the leaders to suggest names of their choice, but since BJP hasn't put forth any name, the likes of Manita Banerjee, Mallikarjun Kharge and Abhishek Yadav remained "non-committal". The possibility of the emergence of a consensus appears remote with most opposition parties deciding to field their own candidate. P 9

TOI remains India's most trusted news brand: Reuters Inst

The Times of India, the world's largest English language newspaper, has once again come out on top as the most trusted among major news media brands in India, according to a 45-country survey conducted by the Reuters Institute for the Study of Journalism (RISJ). It had topped the list last year too, with a trust score of 74 — the 2022 survey gives it an even higher 78. TOI stands head and shoulders above the rest — the next seven brands are clustered in a narrow band of 72 to 76. While there are no cross-country comparisons, TOI's immense trustworthiness can be gauged from the fact that the most trusted brand in the UK, BBC News, had a score of 36, and the most trusted paper in that country, the Fi

72GHz OF 5G FREQUENCIES WORTH AROUND ₹4.5 L CR TO BE SOLD FROM JULY 26

Cabinet OKs 5G Spectrum Auction, at Trai Prices

Telcos wanted bigger price cuts, but govt says easier payment terms will help

Our Bureau

New Delhi: India will hold its first auction of 5G airwaves in July-end, pitting Reliance Jio, Bharti Airtel and to a lesser extent Vodafone Idea in a bidding battle, after the union cabinet cleared the sale of these ultra-high

net up to ₹4.5 lakh crore. The government in a statement on Wednesday said it will auction spectrum for 20 years across nine bands ranging from 600 MHz to 26 GHz at prices recommended by the telecom regulator. While these prices are around 80% less than what the regulator had proposed in 2018, the telcos have been demanding a 90% reduction from the 2018 level.

The government, on its part, said the decisions to scrap the need for upfront payment for winning bidders and allowing payments in equal annual instalments over 20 years will ease financial outflows of telcos.

usage charge (SUC) for airwaves bought in the upcoming sale as well as scrapping the need for bank guarantees will further ease the cost of doing business. The cabinet also allowed enterprises to directly obtain spectrum from the Department of Telecommunications (DoT) for setting up private captive 5G networks. The government statement said private captive networks would spur a new wave of innovations in 'Industry 4.0 applications' such as machine-to-machine communications, Internet of Things (IoT), and Artificial Intelligence (AI) across automotive, healthcare, agri-

WARNS OF GROWING ECONOMIC DISTRESS

- It also warned of a sagging global economy, cutting 2022 economic growth forecast to 1.7% from 2.8% projected earlier
- "Labour market remains extremely tight," said Fed Chairman Jerome Powell. The Fed also cited the Ukraine war and China lockdown policies as sources of additional inflation pressures

U.S. WHOLESALE INFLATION IN MAY
UP FROM 10% IN APRIL

[illegible]

Air Marshal Mohavendra Singh

New Delhi: A day after the Centre unveiled Agniveer scheme, a radical recruitment plan for armed forces, the Union education ministry on Wednesday announced it will launch a special three-year skill-based bachelor's degree programme for those recruited under the scheme. The aim is to increase career options for Agniveers, as the recruits are to be known, and prepare them for civil jobs post their tenure in

Noting that a six-month specially designed training programme is being worked out for Agniveers, he said even women will be recruited in the future. "On completing the engagement period of four years, 25 per cent of each batch will be enrolled in the regular cadre of IAF, based on their perform-

In the second, third and fourth years, 3,500, 4,400, and

Pawar Mamata Khargo

recruitments will begin soon after the notification is issued. "The recruitment process takes around 90 days. The IAF has planned to recruit 3,000 youth
