Sub: Request for permission to visit Sugar Factory a MoU activity regarding.

Dear Sir,

The Faculty members and students of Chemistry Department are very happy and eager to start the MoU activities of this year with an industrial visit. It is known to you that our college is affiliated to Rani Channama University Belagavi and is one of the premier Educational Institution known for its educational excellence. As per the University curriculum the B.Sc-VI semester students studying chemistry as an optional subject should visit an industry and submit the Industrial report which will be assessed for ten marks at the University practical examination. Hence as a MoU activity of our department and as a part of curriculum, the Final B.Sc. students are planned to arrange an industrial visit to your esteemed industry. The industrial visit will help our students to study about manufacture of sugar, quality control of products, industry environmental aspects, recent trends in instrumental techniques of factory laboratories and above all the visit will enrich the academic knowledge and develop collaborative activities. Hence we are kindly requesting you to grant a permission for our students and staff to visit your industry on 12.02.2021. We are happy to organize an industrial visit a MoU activity of this year with you.

We hope you will do the needful and oblige

Thanking you,

*Amrta*

## DEPARTMENT OF CHEMISTRY REPORT

MOU ACTIVITY 2020-21

Industrial visit is a very important and effective method of learning. Industrial visit is introduced in the B.Sc VI semester syllabus of Ranni Chanamma University, Belgavi. The Department of Chemistry organized a one-day visit to Shri Balaji Sugars and Chemicals Pvt. Ltd., Yaragal on 8.02.2021 for B.Sc VI semester students. 30 students and 03 staff members of the team reached the sugar factory.

The resource person accompanied with the team and entered the factory. All of them watched the machines working. Then the resource person discussed in detail the process of manufacture of sugar, availability of raw material, crushing the raw material, final product with its package and environmental aspects of the factory by means of a flow chart.

With this activity, the students come out with a practical knowledge of sugar production, marketing, human resources, and industry placement opportunities.
