Advantages of dairy farming business

The initial investment in dairy farming business is low in comparison to other Industry.

It is environment-friendly. ...

The demand for milk product is increasing rapidly.

Cow dung is good organic manure it increases soil fertility.

Cow dung can be used for the production of biogas.

Apart from being an important sector globally, dairying is equally important in developing economies like India, for providing nutrition support, reducing rural poverty, inequity, ensuring food security for millions of rural households, and enhancing economic growth, particularly in rural areas.
