CROCODILE AWARENESS PROGRAMME

CROCODILE AWARENESS PROGRAMME

- **World Crocodile Day Observed on June 17th every year. It is a global awareness campaign to highlight the plight of endangered crocodiles and alligators around the world. India is home to three crocodilian species:**

Ferocious jaws and armoured skin – crocodiles secure themselves with might in the wild. There are 24 species of crocodiles found across the globe. Gharials, muggers, caimans, and true crocodiles fall under the group commonly referred to as crocodiles. India is home to three crocodile species – Gharial, Mugger, and Saltwater Crocodile.

- **It is a global awareness campaign to highlight the plight of endangered crocodiles and alligators around the world. The mugger crocodile, also called the Indian crocodile, or marsh crocodile, is found throughout the Indian subcontinent. It is listed as vulnerable by IUCN.**

It is found throughout the east coast of India. The Gharial and Saltwater crocodile conservation programme was first implemented in Odisha in early 1975 and subsequently the Mugger conservation programme was initiated, since Odisha is having distinction for existence of all the three species of Indian crocodilians.
